## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 7, 8, and 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Barney, U. S. Patent 343,688.

3. With respect to claim 7 and 10, Barney teaches a collar having a display surface adapted to receive a slip of paper having indicia thereon. The collar also has an upper portion with an upper lip **B** and a lower portion with a lower lip **B** defining a slot formed therebetween for receiving the slip of paper **C**.

4. With respect claim 8, Since the applicant has not disclose that forming the upper and lower annular piece of thermoplastic material solves any stated problem or is for any stated purpose, it appears that constructing the annular piece of any suitable material as taught by Barney would perform equally well in retaining the display slip of paper..

***Allowable Subject Matter***

5. Claims 12, 17, 18 and 20 are allowed.

***Response to Arguments***

6. Applicant's arguments with respect to claim 7 have been considered but are moot in view of the new ground(s) of rejection.
